

Cosecha in Gallery Nights

On August 28th Cosecha joined the circuit Gallery Nights with the exhibition “Encanto-Desencanto”. The exhibition displayed the work of the artist Marisa Varela and an installation of Ale Gougy and Inés Zorraquín. The theme of the exhibition was the glass, object that was compared with life, personality and identity. The event had a great repercussion and was a unique opportunity to enjoy an original activity. The work will be in display until the end of September. Come and watch!
